All revolutionists deplore any action on the part of the United States government that would give strength to Cabrera's administration, and they point to his record as proof that he is incapable of retaining power longer in Guatemala. They allege cruelties, executions, forced loans and general despotic conduct on his part over a series of years. They affirm that it will be proved that he plotted to overturn the administration of Regalado when that soldier was President of Salvador, and has long been a disturbing element in Central American politics.

Well-informed people here believe that the safest plan for the United States is to ask for a complete change of government in Guatemala, with proper recognition of Barillas, Toledo, Castillo and other leaders of the pres-

castillo and other leaders of the present revolt.

Salvador, it is stated, will never consent to making terms with Cabrera, her bitter enemy. Cabrera has manifested unexpected military strength, and this fact has somewhat puzzled the revolutionists, but they declare that the revolution will go on unless the United States government and Mexico can persuade Cabrera to step down and out.

WASHINGTON, July 17.—Even leprosy cannot force Filipinos to abandon politics. The Burcau of Insuian Affaigs has received reports of an election recently held on the Island of Culion by the leper colony, for the choice of a president and conskales, or councilmen. The lepers also took occasion at the time of the election to formulate resolutions thanking the Philippine government for the excellent quariers it has provided for them, for the island is given over entirely to the unfortunates, and will eventually to the unfortunates, and will eventually to the unfortunates, and will eventually be made the home of all the 5600 lepers in the archipelago. The Dewey will be anchored with four huge musincom anchors at each end, and as the tide rises only about one foot at Glongapo, there is little danger of the huge structure being moved.

ASSASSIN IDENTIFIED.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, July 17.—The assassin of Gen. Kosloff of the headquarters staff, who was murdered in the English park at Peterhof Saturday last, has been identified as a Lett belonging to an organization the members of which have sworn to kill GenTrepoff, Prince Putlan and thirteen other persons intimately connected with the court. The assassin was chosen by lot.

Threats of a police strike nearly caused a panic here today and though the strike has been postponed the danger cannot be said to have entirely passed. The ostensible basis of police discontent is monetary. The gendarmes of the first district this morning refused to go on their beats until authoritatively assured that their money would be paid with full interest. The captain tried to pacify the men with assurances that everything would be satisfactorily arranged, but they would not listen to him. They then marched to the second district, where they induced their comrades to join them. Cossacks were summoned and the police were surrounded and the police were surrounded and threatened with arrest, but they held out until the Chief of Police assured them that their demands would be investigated and all wrongs righted. Notwithstanding the efforts of the police officials to quiet their fears, the people are in terror.

ing the efforts of the police officials to quiet their fears, the people are in terrore.

The House, today, adopted, 185 to 39, a proposal to continue the debate on the agrarian report, limiting speakers to five minutes acch.

The house, which, throughout, was very animated, was intensely stirred by a speech by Deputy Dnitsky, one of its best orators, who, in moving that a manifests should be addressed to the people, said Parliament must not wait till the villages are in flames and the whole country in engulfed in anarchy. The speech was greeted with enthusiastic cheers by the left and exclamations of astonishment from the center and right. M. L. Dnitsky then mounted the tribune and declared that the proposition emanated from him personally and not from any political group.

IBY THE ASSOCIATED PRESS-A.M.1 PORTLAND, July 17.-A firm restreet car company to consider any proposition or demands coming from the union was met by the conference committee of the local street carmen's union today when it presented the official ultimatum adopted by the union. The committee promptly informed the company that it would be given forty-eight hours in which to reconsider its stand and call another conference, should it so desire. At the expiration of that time, if the company still remains firm and refuses to treat with the union, a report to this effect will be made to the union and further action will be left to a majority vote of that body.

The union, at a meeting last night, decided to demand that the Portland Railway, Light and Power Company, which operates all the street car lines in Portland, reinstate E. J. Following the adjournment of the grand jury, District Atty. Gen. We came to the conclusion that the aforesald testimony fixed the legal jurisdiction of the Northern District of Ohio, and Special Counsel Oilver E. CLEVER BAD CHECK MAN BUSY.

CHICAGO, July 17.—Chicago department stores and merchants throughout the country were warned yesterday to be on the lookout for operations of a clever bogus-check worker, whose identity is unknown. The warning came from the American Bankers' Association. His method of operation, according to a detective agency, is to present checks for \$30 to \$30 in the office of the store, representing that he had not sufficient money to pay for his purchases. The swindler gets his checks at various banks, where he manages to secure blocks of ordinary counter checks. The swindler is described as \$5 to 40 years of age, 5 feet or 5 inches in height, 140 pounds in weight, medium dark hair, mixed with gray, close cropped mustache or clean shaven.

IN EVERY PACKAGE We do not mean that \$1.84 in currency is actually enclosed in each package of Pillsbury's Best Breakfast Food—Vitos. But we do mean it saves you that much over the ready-to-eat kinds. Besides you get 'Pillsbury" quality, and that's always the best. A package containing two full pounds costs 20 cents. When prepared it makes 12 pounds. The ready-to-serve kinds, containing about 78 of a pound to the package, cost 15 cents. A full pound would cost about 17 cents. 12 pounds would cost \$2.04. So the difference between 20 cents and \$2.04 indicates the saving when Vitos is used—\$1.84. Use Vitos regularly. Put \$1.84 in the bank every time you buy a package. Vitos is a delicious food, it is the "White Heart" of the Wheat berry—the very life of the grain. Pillsburys Best PILLSBURY **Breakfast** Food Your Grocer.

STARS BARRED HERE.

In Clifton is a drinking dive, called the "Red Banner," in which it was proclaimed the Stars and Stripes could not be waved. To this exception was taken by Wiley E. Jones, one of the Democratic leaders of the Territory, for years District Attorney of Graham county and a staff officer of the First Territorial Infantry during the Spanish War. Jones paraded boildy into the place, bearing aloft an American flag. The anarchistic loafers quickly mobbed the flag and its bearer, and it would have gone badly with Jones had not a number of patriotic citizens followed him. As it was, there was an usy serimmage, though without serious casualities. Naturally, there is a feeling of deep indignation on the part of the better class of residents in the camp.

Fanak Wiggms has been kept so busy for a week or more in the Trust company, where he is employed, that he has not had a moment in which to canvas, and the worst of it is there is no prospect of a let-up before the beginning of next month, when Frank hopes to have a vacation and time to build up his score. In the meantime it will suffer some unless his friends give him a boost now and then.

Sequel to Local Title Company Deal.

The local offices of the Pacific Coast Steamship Company were notified yesterday of the utter rout of the striking sallors and their federated unions, and the resumption of the salling of the steamers on their regular schedules.

With the collapse of the strike, which has dragged along through seven weeks, the Pacific Coast company, the Pacific Mail and the Oceanic, and all the independent steamers and schooners, whose weeks have stood together to fight the strikers, have shaken themselevs free from the union yoke, and have come out flatly with the declaration that benceforth their boats will maintain the "open shop."

Under the "open shop."

Under the strikers, have shaken themselevs free from the union yoke, and have come out flatly with the declaration that benceforth their boats will maintain the "open shop."

Under the stopen shop." and with a non-union crew of experienced sailors, the Pacific Coast company dispatched the State of California for Los Angeles yesterday. The steamer is due to arrive tomorrow morning, and will leave for San Francisco Friday morning.

Although the State made two trips during the strike, the Santa Rosa, which will leave San Francisco south bound Sunday, will be the first boat to resume the regular sailing schedule. The Santa Rosa, will arrive Monday morning, and returning to San Francisco, will leave Port Los Angeles Wednesday morning right on schedule. The officials of the Pacific Coast Steamship Company were among the most aggressive fighters of the usual unreasonable demands of the waterfront unions in San Francisco, and credit for beating the strike is largely given to Manager Pierce of that company.

The local offices have been advised that all of the ships have been manned with experienced non-union sailors without the slightest difficulty, and that if any union sailors sign to work on the boats they must abide by the open-house boiley, which is henceforward to be one of the unaiterable rules laid down in the operation of the company's ships.

DON'T LIKE THE CHANGE.

SOUTH PASADENA, July 17.-Th SOUTH PASADENA, July 17.—The new schedule which went into effect yesterday on the Pacific Electric Railway between Los Angeles and Pasadena was received with considerable opposition by South Pasadenane specially those residing in the western section of the city. By this change is hardship is wrought on the passenger of the main line for Pasadena and points east, as they are compelled to transfer to the short line at the junction on the corner of Mission stree and Fair Oaks avenue. The burder of the complaint is not the transfer itself, but the walting in a broiling ho sun on a newly-oiled street for a shortline car, which is usually already overloaded.

Division Superintendent Rowray said that the inconvenience in the matter of transfers must be borne by the people during the summer months, but that before winter comes the company expects to establish a local service to South Pasadena which will give general satisfaction.

The first division of the Pasadena Y.M.C.A. boys left for their homes Saturday, and the senior members arrived to take their outing in camp at White's Landing yesterday. They number over forty.

The Los Angeles Y.M.C.A. boys who were camping at Camp Whittier have also returned home.

In seeking from President Peabody the cause of this action on the part of the Standard Oil interests, Peabody gave out a personal letter from Rogers, upon which he said he would make no comment. In this letter, Rogers said. "When the troubles came upon the company, I felt it my duty as a trustee to stand by and do anything I could of service to my fellow members and policy holders. I believe I have rendered some assistance.
"The statement has been frequently made that I caused your election to the presidency of the Mutual Company. No one knows better than you how false this is. TO WHOM IT MAY CONCERN:

There is a ground-floor business fascination about the "No-Promotion Stock System" of the Greater Manhattan Consolidated Mining Company of Los Angeles that instantly appeals to the masses who find profit and pleasure in belonging to the grand army that seeks to annex a portion of the wealth of the rich gold mining districts of the great State of Nevada. The Greater Manhattan Consolidated Mining Company's system is conducted on the co-operative or com-munity plan, each shareholder enjoying the full benefits derived from the use of the community cash. Only treasury stock is available-none used on the wornout promotion system. The Greater Manhattan property promises to become among the best wealth-producers in Nevada. Men of expert knowledge in mining and development work are in personal control of the holdings, and they are displaying commendable activity in properly looking after the interests of the shareholders by completing arrangements to secure early results. J. J. H. YOUNG,

To Hesitating Investors

The Greater Manhattan and Manhattan Gibraltar Gold Mines Companies are Making up a Party to Go by

Special Train to Manhattan

We claim that we have Twin Bonanzas in the properties owned by these two mining companies at East Manhattan. Stock in them has been offered so cheap as to excite criticism and provoke skepticism. We know just what we have and hold, and we would like nothing better than greater possible publicity, and fullest possible investigation, that others may know. Seeing is believing, and, therefore, in order to convince the Doubting Thomas, who stand waiting and wavering between "I dare buy" and "I dare not," we make this proposition:

If a sufficient number of investors will signify to us by Saturday evening their intention of visiting our camp, we will provide transportation, via Southern Pacific, to Sacramento, Hazen and Tonopah, thence to Manhattan, and return, at special reduced rates.

We will make this agreement with any buyer of \$500 worth of stock of Greater Manhattan or \$500 worth of stock of Manhattan Gibraltar, that if he will deposit the price of this amount of stock with the Merchants' Trust Company of Los Angeles, we will provide transportation FREE to Manhattan and return; he, in turn, if he finds the properties just as we have represented them to be, to order the money turned over to us to complete purchase of stock; and if he does not find the properties as represented, we forfeit, and the bank pays him back his money.

Here is your chance to convince yourselves by your own senses. Here is your opportunity to make a mining investment, eyes open. Here is your turn, if you think us bluffing, to call our hand. Put up your chips!

TURK DROPS PUG ASPIRANT. Baker Rounds Into Fine Shape—Al Wing Says It's a Shame to Take the Money.

Harry Baker has fully recovered from his lethargy and bad shoulder, and is in fine fettle. The featherweight and is in the fettle. The featherweight is now under the management of Selma Magnus, who has taken charge of his training and slowed the young fighting machine down to low-speed gear. Baker will enter the ring for his

fighting machine down to low-speed gear. Baker will enter the ring for his battle with Kid Webster trained to the hour. It promises to be a hard fight.

The remainder of the gladiators who will perform Friday evening are working hard, and enough good punches have been thrown away over at the junction to put all the lightweights in the business out of commission.

The piece de resistance dropped into town yesterday in the form of little Ah Wing. He found time to saunter into training quarters and see the bunch go to it.

When he saw Menney working he withdrew a bland smile from his raiment and pinned it over his face. "Pudding, cinch, easy money." said Ah Wing. "It looks like a shame to do it." Menney figures three rounds for the Celestial, and claims to have a shutcye hidden up his sleeve to be presented about that time.

The punsters will cease treatingly lightly Abdul Malin, the Turk, who is to fight Indian Joe. Abdul has put out his man, and that in short order.

Xesterday McCarey was approached by parties having a 150-pounder whom they wanted to match. The newcomer went to the Pacific Athletic Club pavilion where the Turk was in training. McCarcy told the aspirant for pugilistic laurels to get into the ring and give a sample of his prowess with the digit protectors. Malin took him on, and when he was through with him, the referee was counting somewhere around a hundred.

As the aspirant could not "show" with the "unspeakable," another future champion was relegated to the scrap heap.

The passage of the proposed amendment, it is said, will tend to eliminate the advantage now held by the elevator men over the commission men in the purchase of grain. The adherents of the amendment assert that if it is proper to have a committee rule fixing the commission to be charged for buying and selling contract grain in the market for future delivery, it is equally essential to establish an equitable charge for the buying of eash grain to arrive.

Independent Oil Producers Are Now Helding Out for a Still Higher Rate Contracts for Thirty Million Barrals of Oil for Export Tends to

Independent oil men in Los Angeles and Bakersfield are happy. The Associated Oil Company has been forced to come to time and sign contracts at more than 16 cents a barrel for oil with an independent company.

Ever since last April the Associated Company has been holding off for the purpose of forcing a renewal of itrentract price with the Independent Oil Producers' Agency at 18 cents a barrel for crude eil, but as told in The Times, the independents combined to get a better price and demanded at least 20 cents a barrel from the Associated.

Now the latter company has, it is announced, contracts with the Columbia Oil Company for 25,000 barrels of oil from the Kern fields at 20 cents a barrel.

But the other independent company for 25,000 barrels of oil from the Kern fields at 20 cents a barrel.

of oil from the Kern fields at 20 cents a barrel.

But the other independent companies have again raised their figures and will refuse to accept any offer of 20 cents at this time.

Representatives of the independent yesterday stated that the demand for fuel oil has become so lively that the laws of supply and demand will certainly force prices up.

Besides the contracts recently made to ship 20,000,000 barrels of California oil to Japan and Chila, the Union Oil Company is preparing to ship other millions of barrels to the East, and possibly even to Europe, via the Panama canal zone pipe line. This will bring it in direct conflict with the Standard Oil Company.

Thousands of barrels of fuel oil from local fields are now being shipped direct to the mining centers of Arisona and this State and this market is growing steadily, opening up a field for the sale of fuel oil which will become more and more important when the smelters and mills now being built

BREVITIES.

Not only has California oil won an important place for itself in the oil market, but oil men say that probably never again will such low prices for local oil be seen.

One reason for this is due in a measure to reports that in some of the oil fields, notably that of the Sait Lake district, controlled by the Associated Oil Company, the production has failen off and there is a great activity in drilling new wells and sinking others deeper.

It is expected that within a short time a number of big oil contracts will be reported made at an increased price.

SENT TO PATTON. Ella I. Graham, a resident of South Pasadena, was yesterday committed to the State Hospital at Patton by Judge Gibbs. Miss Grahad had been confined in a hospital in Illinois and came to relatives here six weeks ago in the hope that change of climate would benefit her. Joaquin Ayala was also committed. He was discharged from the State Hospital as cured in December, 1903. Lately he was arrested for stealing a horse but at his preliminary examination it developed that the man was wholly irresponsible.

A Long Onc.

The Executive Committee of the Los Angeles Harness Horse Association met last night and arranged the list of judges at the big meet which will open this afternoon at, Agricultural Park. Those who will officiate are H. N. Henderson and C. A. Canfield, Los Angeles; John A. Cole, San Bernardino. The opening meet promises to be the largest thing in harness racing everheld in Los Angeles, and the list of entries bears out this prognostication. Aside from the special feature of fered in the running race wherein laddes will perform as jockeys, the preparation for gilt-edged trotting and pacing events has left little to be desired.

Harness racing has ever been the sport of gentlemen and has not suffered the deteriorating influences that has brought down the wrath of the public on its head, and when it is handled by men of undenied ability and integrity, as in the present instance, it takes on the color of true sport.

The meeting will open today with the 2:12 and 2:19 pacers and the three-minute mixed classes, in which some specity animals have been entered, and where purses have been provided of sufficient size to make it worth while to drive for victory.

Society has given countenance to the meeting by a liberal purchase of boxes, and there will be fashion and beauty as well as good entertainment.

The real big event of the meeting from a social standpoint will be the ladies' saddle-horse race. For this event, which occurs Friday afternoon, the following entries have been recorded:

CHAMPLAIN (N. Y.) July 11.—(Exclusive Dispatch.) After the strenuous ride over the Adirondack roads yesterday, the Glidden automobile troshy tourists appreciated the short run today from Elizabethtown to Hotel Champlain.

The trip of thirty-eight miles was divided into two time divisions, Ausable Chasm (twenty-one miles,) being the checking point. The schedule required two hours' stop at the latter place, and most of the tourists occupied the intervals in going through the chasm.

As early starts were made from Elizabethtown, practically all of the tourists arrived here in time for tuncheon. Many of those who had arrived at Elizabethtown late last night brought tales of hardship and marrow sexcapes in Chapel Pond Notch, which long will be remembered by every one who came through it.

This summer Prof. Courtney has been working up his talent until he has some of the best material in the State.

The races on September 9 will be for the championship of Southern California, and entrants are eligible from as far north as Santa Barbara. It is the hope of the club to secuhe entries from Los Angeles, Santa Barbara, Santa Monica and elsewhere.

In furtherance of this plan, Prof. Courtney has offered a handsome championship medal to go to the winner of the mile and a half scull. It shall be defended one year, conditionally that the holder does not have to accept more than, two challenges in one year. Should the holder not be challenged for one year the medal becomes his sole property.

Prof. Courtney has been in communication with Los Angeles oarsmen, and hopes to secure at least one entry from this city.

The Autopiano, in Thirty-One Years of Piano Selling Our Greatest Success

If you have not heard the AUTOPIANO you have not heard the best music played in the best manner as there exists absolutely nothing musically beyond its reach. The AUTOPIANO is the combination of a high grade piano with a perfected inside player, making practically ONE IN-STRUMENT no larger than the ordinary piano. The keyboard of the piano has not been changed and can be played at any time in the ordinary manner. The pedals disappear when the piano is not being played by the perforated roll, so that it has the same appearance as other pianos.

ONE BOTTLE CURES.

Chicago, Ill., April 8, 1906.

Mr. W. F. McBurney, Los Angeles, Cal.—Dear Sir: It affords me pleasure to testify to the efficacy of your Kidney and Bladder Cure. I have been troubled with my kidneys and bladder for over four years. I have been treated by the best physicians of this city during that time. (I mention two who stand at the head of the profession, viz.: Dr. C. A. Purdy and Dr. Frank Walls, the latter being my son; I regret to say they did me no good. I was advised to spend the winter in your glorious climate and try the ocean baths. I visited San Diego, Santa Monica and Santa Barbara, but received only temporary relief from the baths. On the night I left home I got a bottle of your medicine. The first dose did me good, and I was well when I reached home, and I can say in conclusion that I am grateful to you. If this letter is of any use to you, use it. THOS. WALLS.
